COURSEWORK

Data Structures and Algorithms

Object Oriented Programming

SKILLS

PROGRAMMING

Languages:

Java 8 • Springboot

Web skills:

HTML5 • CSS3 • JavaScript • JQuery •

Bootstrap • Ajax • Node.js • Express

Web Services:

REST • SOAP

Frameworks:

Spring MVC • Spring Boot • Spring Cloud

• Struts • Hibernate • Angular 8 • React

JS

Cloud Hosting:

AWS • Google Cloud Platform

Scripting Languages:

JavaScript • jQuery • Python

Code Version Control:

GIT • CI/CD • Jenkins • Gitlab runner

EXPERIENCE

HCL TECHNOLOGIES | JAVA DEVELOPER

Dec 2020 - Present | Noida, India

- Involved in various phases of Software Development Life Cycle(SDLC) as requirement gathering, modeling, analysis, architecture design and development and the project was development using Agile Methodology.
- Developed UI and appearance for the screens using JavaScript, AJAX, AngularJS and JQuery.
- Performed application design development maintenance enhancements and testing using JUnit framework.
- Responsible for system analysis, design and development using J2EE architecture.
- End-to-end Project Management, including customization of product based on the customer's requirement.
- Created and developed RESTFUL API utilizing Spring Boot with Spring MVC.
- Performed devops tasks like creating docker image, developing the different configuration file like deployment, ingress and service required for deploying images to Kubernetes namespace.
- Enhanced task scheduling, meeting delivery deadlines on development, testing, implementation phases of the system and customer relationship.
- Worked with Angular 4/6 for developing the frontend of the application.
- Collaborated Java libraries to access AWS facilities as Simple Storage Service.
- Developed Server side Modules and client side user components and deployed them in the compute cloud of AWS.
